PROFESSIONAL SUMMARY

Aspiring Software Developer with a strong foundation in Python, Java, SQL, ASP.NET, Full Stack Development, AI/ML, Data Analytics, UI/UX (Figma), and cloud computing. Skilled in web application development, data analysis, database management, and user-centric design. Passionate about creating scalable software solutions, solving complex problems, and continuously enhancing technical expertise.

SKILLS

Technical Skills: Python, Java, SQL, Artificial Intelligence & Machine Learning (AI/ML), Data Analytics & Visualization, Data Structures, Cloud Computing, Full Stack Development

Application Development: Responsive Web Design, UI/UX Design (Figma), User Interface Design, Web Application Development

EXPERIENCE

Jun 2026 - Jul 2026

AI & Machine Learning Intern

Globotics - Coimbatore

- Developed machine learning models to improve data analysis efficiency.
- Assisted in preprocessing datasets for training algorithms, ensuring data quality and accuracy.
- Collaborated with team members on AI project tasks, enhancing communication and workflow processes.
- Developed polished visualizations to share results of data analyses.

EDUCATION

Master of Computer Applications: Computer Applications Development

Kumaraguru College of Technology

- Anna University
- CGPA: 7.44

Bachelor of Computer Applications: Computer Applications Development

Dr G R Damodaran College of Science

- Bharathiyar University
- CGPA: 7.7

HSC

Kendriya Vidhyalaya (Ministry of H.R.D Govt of India)

- CBSE
- Final Grade: 78.9 %

SSLC

Kendriya Vidhyalaya (Ministry of H.R.D Govt of India)

- CBSE
- Final Grade: 63.8 %

CERTIFICATIONS

- Data Cleaning
- Data Visualization
- RPA and Techniques
- Automation Techniques in RPA

PROJECT

Software Piracy Protection System: Designed and implemented a Software Piracy Protection System using ASP.NET 2022 and SQL Server 2019 to secure software licensing. The system includes user registration, secure online purchase, OTP-based activation, and IP/MAC address binding to ensure access only for authorised users and prevent piracy.
